DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see pages 13-15, filed May 4, 2006, with respect to claims 16-85 have been fully considered and are persuasive. The of rejection has been withdrawn.

Allowable Subject Matter

2. Claims 16-85 are allowable over the prior art.

3. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a reserved program record setting method for a program preview of a broadcasting program to be recorded with a VCR and a TV. Independent claims identify the uniquely distinct features, "reserving the upcoming program is only operable while the program preview is being displayed."

The closest prior art, Aristides et al. (US Pat. 5,657,072), fails to anticipate or render to the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
